COURSE

Web Development

---

**Code Functionality****Exceeds Specifications**

- [ + ] Submitted URL passes autograder and can be used successfully by the human grader
- [ ++ ] Submitted URL passes bonus autograder.

**Code Quality****Meets Specifications**

- [ + ] Code does follow Best practices document
- [ + ] Code follows an intuitive, easy-to-follow logical structure.
- [ + ] Code that is not intuitively readable is well-documented with comments.
- [ + ] Similar coding constructs (classes, functions, variables, etc...) use similar naming conventions (CamelCase, snake\_case, ALL\_CAPS, etc...)

**Comments from Evaluator**

- Excellent work, very clean and well put together website. Great use of front-end frameworks like bootstrap.
- Great use of github to manage your project, love the well put together read me.
- Very organized and clean code!

**Project Exceeds Specifications**
